EXPERIENCE

Senior Front End Developer — Feb. 2023 – Present
Nvish Solutions Pvt. Ltd. — *Remote*

- Developed and maintained interactive user interfaces (UIs) for *databricks.com* using Gatsby, a framework for building high-performance React websites.
- Leveraged React to create reusable and maintainable UI components, ensuring a consistent user experience across the platform.
- Optimized website performance through code efficiency and best practices, contributing to a faster and more responsive user experience.
- In addition to front-end development, collaborated with backend teams to implement new features on databricks.com.

Front End Developer — Nov. 2022 – Jan. 2023
Magam Systems — *Chennai*

- Developed and maintained user interfaces (UIs) for Attune using React, a popular JavaScript library for building interactive web applications.
- Implemented responsive UI components that adapt seamlessly to different screen sizes and devices, ensuring a consistent user experience across platforms.
- Troubleshooted and debugged front-end issues, ensuring the application's stability and performance.

Web Developer — May. 2015 – Jan. 2022
Freelance — *Chennai*

- Developed and designed custom websites for a variety of clients, ranging from small businesses to large corporations.
- Utilized HTML, CSS, JavaScript, and React to create responsive and user-friendly websites that met the specific needs of each client.
- Provided ongoing maintenance and support for websites, ensuring that they remained up-to-date and functioning properly.
